

Everon Series Light Trap

Application: Poultry

Advantages:

1, Made of high quality Non-glare PVC material, anti-aging, anti-chemical, anti-high pressure cleaning.

Light trap transmittance: 0.51ux

2, The vane Spread out in one unit, easily to be disassembled and cleaned. Connected by fastener of lock catch type, increasing the contact area, more firmly. Reasonable double-wave shape makes sure the shading performance and reduces the air resistance.

Vanes distance: 30mm. Thickness: 0.9mm-1.0mm

3,reasonable design,it can assemble different sizes and easy to install,highly effective to reduce the light.

4,Frame is made of stainless steel or hot-galvanized steel

5,Size: different dimension is available, easy to be assembled with high efficiency

6, Installed in the front of fans and air inlet

Type	Size
EOLT-1380	1380x1380mm
EOLT-1100	1100x1100mm
EOLT-1000	1000x1000mm
EOLT-900	900x900mm
EOLT-600	600x600mm
